

XE55CTX

PRESENTATION

2-way wall mount loudspeaker with transformer

FEATURES

PROEL has updated its range of INSTALLATION speakers with the new XEOS series, which includes a selected number of surfacemount and ceiling models. XEOS has been designed for contractors and installers looking for a wide choice of cost-effective, elegantly designed speakers with good quality sound.

CODE: XE55CTX

Bar code: 

TECHNICAL SHEET

System type: 2-way coaxial enclosure

Nominal Impedance: 8 ohm

Input power rating (continuous): 30

Input power rating (peak): 60

Frequency response: 45Hz - 20kHz

Sensitivity: 87dB @ 1W/1m

Low Frequency Device: 5" woofer

High Frequency Device: 1" dome tweeter horn loaded

Constant Voltage Selector: 70V - 100V

Transformer Power Selector: 8 ohm - 1/2/5/15/30 W

Construction:Injection reinforced hi density polypropylene

Cabinet Colour:White

Mounting Hole:Square 14.5 cm (side)

Weight:1,3

Dimensions (W x H x D):17 x 17 x 6.3 cm
